

# FLAVORS FOR PROTEIN

Are you searching for a signature flavor for your application? Our R&D team has a passion for custom flavor development, a Trilogy specialty that helps our partners meet their specific flavor needs and consumers' changing flavor preferences.

Developing a flavor is only the beginning of our process. Trilogy is a one-stop-shop for total product development. Our team of flavor chemists work alongside our customers from idea to production to ensure a seamless integration of the optimal flavor delivery system.

Manufacturers of protein shakes, protein bars, and meal replacement products can rely on Trilogy for a range of flavors that work seamlessly in the finished product. In addition to core flavors such as chocolate and vanilla, our development team creates custom flavors for protein products that suit any palate.
