

# ORGANIC FLAVORS FOR SPARKLING WATER

Are you searching for a signature flavor for your application? Our R&D team has a passion for custom flavor development, a Trilogy specialty that helps our partners meet their specific flavor needs and consumers' changing flavor preferences.

Developing a flavor is only the beginning of our process. Trilogy is a one-stop-shop for total product development. Our team of flavor chemists work alongside our customers from idea to production to ensure a seamless integration of the optimal flavor delivery system.

Trilogy's expertise in organic certified flavors includes many hydroalcoholic extracts that seamlessly work in any sparkling water base, including hard ones.
